Narrative: Students will write a short non-fiction narrative about their adopted species and their hunt for a habitat. Remember non-fiction animals can not talk.

**Exposition/Beginning: introduce character, setting (time and place), & main conflict****character:**

Name the species and describe it.

**setting:**Write when and where the story takes place:**main conflict:**

Describe what the type of habitat your species needs to find.

T: \_\_\_\_\_

**Rising Action: 2-3 events that happen on the character's way to find their habitat.****event 1:**

Briefly describe one thing that happens while hunting for the habitat.

**event 2:**

Briefly write another thing that happens while hunting for the habitat..

**event 3:**

Briefly write one more thing that happens while hunting for the habitat..

**Climax: The character achieves their goal or solves the main conflict.** Describe how and where the character finally finds their habitat.**Resolution: Everything is wrapped up .**Describe how the character feels finally in their habitat.

**T:** \_\_\_\_\_

Students will write a short informative paragraph about their adopted species habitat.

Topic Sentence: WIVF sentence			
W - when or where	I - identity the topic	V - a strong verb	F - finish the thought
Combine the parts and write your topic sentence here.			
Main Details and Supporting Information: Describe what your animal's habitat has for food, shelter, and water.			
food:			
shelter:			
water			
Conclusion: State why finding a good habitat is important for your species.
